- 100% copper jumper cables, not aluminum or copper plated wire. Copper carries more current more efficiently.
- Cable gauge size matched to load. Our cables are up to 4/0 equivalent diameter and up to 10' long. That's heavy-duty.
- Heavy-duty high-current reliable switches.
- On-board electronic battery charger
- No charger accessory to keep track of.
- Ergonomic design and materials – easy to carry, easy to store cables.
